Letter from Mr. Marques-

EDITOR GAZETTE: My name having been unwarrantably connected in your editorial of 29th inst., with a public document, the Anti-Asiatic Union's Petition, in which I am in no way apparent, I trust of your impartiality,

be allowed a few words of answer. It is an admitted fact, in this small community of small minds, that any man who dares not to think like everybody else, is a quixotic crank, and I cannot help smiling myself when I think that a few years ago I have been, in this very community, termed a wild, incoherent, quixotic, impracti-cable fool, with electric softening of the brains, for having argued about the possibility of preferring electricity to gas for lighting up our streets. And so quixotism has turned sober truth, as the present illumination of our streets proves! And so it will be be-fore long, about the "unreasonable, impracticable," etc., aims of the Anti-Asiatic Union, when the exceedingly short-sighted supporters of the Ga-

go with the crowd or be crushed. Now, to come to my object, you assume to attribute to me the authorship of the petition which has been prepared by the Anti-Asiatic Union. There you are, as the GAZETTE generally is, absolutely wrong. The version which I had prepared for the Union was found too incomplete and too mild, only embracing some four or five points, and by collective work and suggestions of a large number of members, the present document was pre-pared as a better exponent of the public wants, and was unanimously approved at several different readings.

This much I wish to say, not because I want to shirk the responsibility of the document, but merely for proper justice to be done to everyone. I do not want the public to think, through your imprudent assertion, that I lead the Anti-Asiatic Union at my whim and caprice, and impose upon it my
"wild, incoherent, quixotic, unreasonable, impracticable," unconstitutional () theories, as you are pleased
to term them, without knowing what
they are. The members of the Union are responsible men, laborers, me-ehanics and tradesmen, who have brains of their own, and who know what they need and must have, and if I am proud to have been chosen to preside over them. I make it a point of never imposing or even showing out my own opinions, until all discussion

So that the day may yet come when the small clique who uphold the GAZETTE will find out that there are here men far more radical than myself, and consequently, in your eyes, far more quix-otic, wild or whatever your impartial-

Events at Hile-

At Haili Church, Hilo, Sunday evening, March 25th, there was a large assemblage of the friends of temperance under the auspices of the W. C. T. U. Much of the time was occupied in singing, and it was singing in perfection by the Hills B. churches. But the Hilo Boarding School boys always sing in such good time (not a discord) that they attract persons who would not otherwise at-

Adams.

have had to introduce themselves.

Unless the charming Governess is charmed by some charming royal refined Government official she will not sign the commission of Sheriff Hitchcock, who received his commission from the Attorney-General and Marshal, which she says is not enough, and she says he is not sheriff. So the Judge, who is usually expected to preside at May term Court at Hilo, can go off on some picnic. It was re-ported that the King had written the Governess to sign the commission of the Sheriff. If so she heeded it not; so the May term will have to be de-ferred (mahope). Wanted immediately (if not sooner), five (5) more Governesses (with one proviso), that they be brilliant and sure to shine, until May next, and able to enjoy Hilo (reign) rain until that time. J. A. M. Hilo, March 80th.

Notes from Hamakua.

Some of the plantation managers think that they can get on without the ditch and do not care to guarantee the Government a fair interest on the undertaking. It is impossible to over-rate the folly of such an idea. Every ten or twelve years a dry season comes, and if ever we get a season like that of '75 or '76 every plantation on this slope will lose at the least \$100,000 to \$200,-000. In that year there were no sugar interests to speak of-no mules or horses, chiefly bullocks-and very few people. Water was dearer than whisky and no one washed. There was hardly anything to be lost, and hardly any one to lose it, and yet every one suffered more or less in body or purse.

The Government homesteads in Hamakua would be inestimably benefited by a steady water supply. Remember that there is no flowing water for twenty-six miles and the springs have all dried up at times in the past.

Let Government run the ditch through, and you may be sure that those plantations which are backward in their support now, will in time of drought be the loudest in their praise of a "spirited" Home Government policy. I would venture to say that it would pay even as a joint stock company.

Last night, Thursday the 29th, Mrs. Geo. F. Renton gave a most delight-ful party at Kukaiau. People came
